

SUPEREVAP

CRAH & Air Handler Units
Ultra Efficient Adiabatic CRAH Unit

*Critical Infrastructure for the World's
Leading Data Centers*

THE NEXT GENERATION CRAH ADAPTING TO MEET YOUR NEEDS

Your Benefits

- Modular Design – available in many configurations and sizes
- Advanced touch controls with real time monitoring
FANWALL TECHNOLOGY® with advanced controls for partial load efficiency
- Energy efficient design
- UL ratings
- >50,000 CFM
- Low-cost design
- Lab based data
- Predictive results (CFD)

Steel panel construction

SUPEREVAP CRAH BUILT FOR DURABILITY

**ULTRA-EFFICIENT ADIABATIC
MEDIA**

**ECONOMIZER DAMPER ON
SUPEREVAP ROOFTOP UNIT**

INDUSTRIAL CONTROL VALVES

STAINLESS STEEL PUMP

**FILTER SECTION: MERV 8 AND
MERV 13 FILTERS AVAILABLE**

**FAN SECTION WITH
INHERENT FANWALL®
SYSTEM REDUNDANCY**
