AIR MANAGEMENT SOLUTIONS

Innovative custom heating, cooling, ventilation and mission critical air management solutions engineered to your specific needs.

Nortek Air Solutions is the largest custom HVAC manufacturer in North America with a combined total of more than 350 years of experience, five manufacturing facilities and 150 offices.

Our brands serve customers in the commercial, institutional, medical, data center and industrial markets. We offer a full range of HVAC products from 15 to 2,000+ tons and from 5,000 to 400,000+ CFM.

Understanding Your Business

Creating the right environment begins with a discussion. Our factory-trained representatives, located in nearly every major city, can help you sort through the myriad of air handling choices.

Think of our representatives as an extension of your team — understanding your requirements, designing a custom solution, and delivering the solution on time, on spec, and on budget.

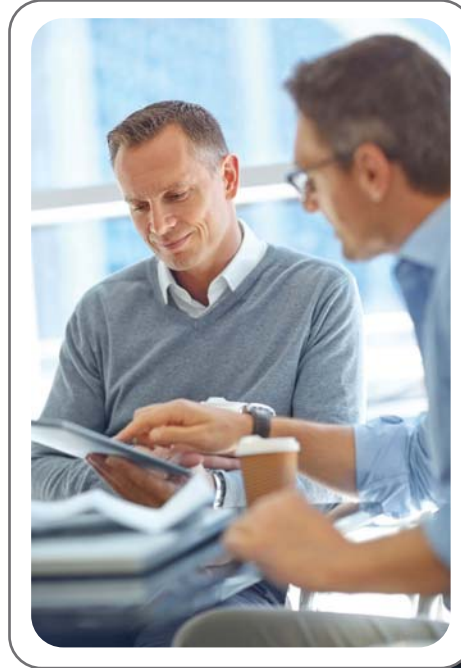

Discuss. Design. Deliver. It's what we do.™

Our Experience Runs Deep

Our commitment to engineer and build the finest products has not wavered since our beginning in 1935. We bring the resources and experience of not one company, but all our companies, to help you with your specialized air management needs.

FANWALL TECHNOLOGY®

FANWALL TECHNOLOGY for air handlers and packaged DX equipment is a key customer solution from Nortek Air Solutions; the inventor of FANWALL®. More than just a fan array, FANWALL systems create a fully integrated and engineered system of state-of-the-art fans, motors, cabinetry, controls and accessories that can be easily combined and integrated to match new construction, replacement and retrofit applications.

CUSTOM AIR HANDLERS

Our custom air handlers minimize total cost of ownership while meeting the most challenging requirements for fit, efficiency and reliability in a wide range of industries, including healthcare, education, manufacturing, data centers, cleanrooms, offices and hospitality. With years of experience designing and manufacturing custom solutions, we offer industry-leading design flexibility and operational versatility to meet your application requirements.

- Stacked Air Handlers
- Vertical Flow Air Handlers
- Demount, Split Air Handlers
- FANWALL TECHNOLOGY® Arrays and Integrated Control Systems

DATA CENTER COOLING

Our innovative, high-performance, reliable data center systems are engineered to meet the most exacting specifications in any data center type: enterprise, colocation or hyperscale. We offer a full range of advanced cooling systems — indirect/direct evaporative cooling to take the most advantage of free cooling conditions, SuperEvap adiabatic air handlers, high-density systems, modular data centers and retrofits, to name a few. Our expertise in data center cooling solutions has grown with more than 30 years of experience meeting the unique needs of mission-critical facilities.

DATA CENTER COOLING continued

- Rear Door Heat Exchangers
- Cooling Distribution Units
- Computer Room Air Handlers
- Data Center Chilled Water Custom Air Handlers

NORTEK AIR SOLUTIONS

Our people continually collaborate with industry experts to stay current on new trends and changing standards and codes.

What You Expect in a Company

You are the customer, and your total and complete satisfaction is our highest priority. You want support you can count on. You want knowledgeable people who respond with innovative, proven technologies when you need them.

Commitment to Superior Performance

We are driven to help you create the right experience with our solutions, to provide dependable products tailored to meet your specific air management needs, and to collaborate with you in an easy-to-do-business-with manner. We want to be your single-source provider of custom HVAC solutions. And we aim to earn your business through our performance.
